

THE GLEICHEN CALL

VOLUME XXVIII NO. 17 18

GLEICHEN, ALBERTA, WEDNESDAY JULY 17, 1935

SUBSCRIPTION \$2.00 PER YEAR

EARLY MORNING BLAZE DESTROYS OGILVIE WAREHOUSE

About 1245 this morning the fire whistle routed out most of the town citizens to discover the Ogilvie warehouse in flames. Upon the arrival of the brigade it was seen at once the fire was so far advanced that nothing could be done the save the warehouse and stock. The crowd present immediately got busy and pushed several stock cars out of danger, one of which was badly burnt at one end before it could be moved and fire extinguished. The loss to the warehouse and stock will amount to several thousands of dollars.

The brigade made remarkably quick time in responding to the alarm, hauling the reels over quickly roads and laying some 900 feet of hose in a downpour of rain. Just what caused the fire is not known. Some attribute it to lightning and others to transients.

PROVINCIAL ELECTION WILL TAKE PLACE ON AUGUST 2.

Hon. George Hoadley has announced that the provincial election will take place on August 2. This yesterday created a great amount of interest in town.

U.F.W.A. WILL HOLD CHILDREN'S DAY AT MEADOWBROOK

The last meeting of the Gleichen U. F. A. was held at the home of Mrs. Goodwin with a good number of members and visitors present. Mrs. H. Burne conducted the meeting.

Arrangements were made and committees appointed for children's day to be held at Meadowbrook Hall July 25th. All children and parents of the district are invited and asked to bring lunch. Ice cream and lemonade will be provided by the organization.

Following the business part of the meeting a display of needlework was on exhibit. There were some lovely things shown. The U. F. W. A. quilt which is to be sold at the bazaar this fall is finished and on display. You will all be seeing this fine variety quilt for next winter.

WORLD TRADE IN MEAT

It is impossible to estimate with any degree of accuracy the number of cattle, sheep and pigs in the world, because in many areas the figures are either incomplete or entirely lacking. At a rough estimate, says the summary on "Meat" the total number of cattle may be in the region of 600 millions, of which about two-fifths are the British Empire; sheep may number about 750 millions, with between one-third to two-fifths in the Empire; and pigs not quite 300 millions, of which not more than five per cent are in Empire countries. In countries with reliable data it would appear that cattle numbers have tended to decline since 1925. On the other hand, the numbers of sheep and pigs in these countries have expanded during the same period.

Live stock numbers do not afford a reliable indication of meat production, due largely to the different purposes for which the animals are kept. Cattle may be intended primarily for milk production or for draught purposes, and in the largest sheep raising countries wool is of more importance than mutton. India with more than one-quarter of the world's number of cattle, does not figure as an important beef producing country. It is evident that there has been a downward trend in the world's beef consumption and a change over to mutton and pork in recent years, both in the countries which normally consume more beef than pork and in those where pork is more popular meat, chiefly Canada and the United States, Germany and some northern European countries.

Also there are striking contrasts in the apparent consumption of meat per head in the various countries, although the figures are available only in a few cases. The peoples of New Zealand, Australia and Argentina are large meat eaters, mainly beef in the last named, and both beef and

News Items of Local Interest

Alex. Lewis with his sister Mrs. R. Postle arrived from Winnipeg last week to visit their parents Lt.-Col. and Mrs. A. Lewis. Saturday all left for Banff where they will be joined by Miss Kate Lewis of Vancouver.

Mr. and Mrs. R. A. Brown and son, Malcolm, left early Sunday morning for Vancouver, where they will spend a short holiday. While they are away Sam Dufosse will look after the store.

Miss Marie Desjardins is visiting relatives at Camrose and Buffalo Lake.

Almost everybody in town attended the Calgary Exhibition and Stampede last week. The industrial magnates of the town were unable to attend for some reason or another. Probably they were financially embarrassed.

Emil Griesback again attended the big show at Calgary and reports as having greatly enjoyed himself. Mr. Griesback was again in the parade with his cart. He has several pictures of himself and the prairie schooner.

Of the 25 million persons unemployed through the world, about a quarter—six to seven million—are persons under the age of 25. This is the statement made by the International Labor Office, which has attracted great attention, since it reveals a social anomaly demanding immediate readjustment. These young persons have, in any cases, never learned to work, never had an opportunity of working, and are apt to become incorrigibly idle. With idleness goes discontent, and with discontent there emerges a definite social danger.

Milton Desjardins who is in the hospital at Bassano suffering from humatins is improving. We hope he will soon be back among his friends again.

Thos. Halstead of Nohemia, Sask. is here visiting his son W. Halstead here for the past couple of weeks.

Mr. and Mrs. Brookbank, of Rosewood, Sask., spent the past week visiting relatives here, namely: Mr. and Mrs. Ostrander, Mrs. Pinder and Mr. and Mrs. W. McPhee. They returned home Monday and were accompanied by Mrs. Pinder who will

return in the first two, the total in each country being well over 200 pounds of meat per head. In Canada, the United States, and Great Britain the per head consumption averages about 150 pounds, of which pork accounts for about 80 pounds and beef for about 60 pounds in the cases of Canada and the United States while in Great Britain beef accounts for about 65 pounds; pork under 50 pounds, and mutton for 30 pounds. Germany eats more pork than beef; France more beef than pork, and neither of them any material amount of mutton, their total consumption of all meats being approximately 110 pounds per head for Germany and 90 pounds for France.

A recent feature of the beef trade has been the successful inauguration of chilled beef from Empire countries. Prior to 1932 this trade was negligible, but shipments approached a quarter million hundredweights in 1934. Canada, South Africa, Southern Rhodesia, Australia, and New Zealand all participating. The total United Kingdom imports of chilled beef in that year were eight and a half million hundredweights.

WITH THE TOWN PAINT ARTISTS

The pool room has had a coat of paint put on the front of the building, both inside and out. Jack Bogie, the proprietor, states the place looks much better now and his friends all agree on that point.

The Ramsay Mercantile is another firm that has made an application of paint to the exterior of the building. Harry Carrick doing the job in a very efficient manner.

The Brown Line, hockey stars, bet

spend a month or so visiting in Saskatchewan.

From Seattle, Wash., come the announcement of the graduation of 11 young men who began their schooling here. Gordon A. Dodds having received his medical degree from Northwestern Medical School in Chicago, Ill., in March and his brother Arthur his B.Sc. degree in Civil Engineering from the University of Washington, Seattle in June. They will be remembered by old timers as the sons of Mr. and Mrs. W. J. Dodds who resided here some years ago. In fact Mrs. Dodds received here public school education here. She is the eldest sister of W. J. Service.

Paul Bracker of Eventide, Homestead Saturday at the age of 69 years, the funeral took place Sunday to Eventide cemetery with Adj. Sutherland holding the services. Mr. Bracker was born in Norway and came to Canada over 30 years ago spent much of that time farming. He had been in Eventide Home for over four years, having come here from Oids.

The 22nd Battery went into camp at Saccos last Saturday. The battery left here at full strength which consisted of four officers and 30 men. They will be gone a week altogether.

W. W. Brown has been suffering from a bad attack of rheumatism in his knee. In his spare time he attacks the pain with an electric vibrator. When the reporter called on him he was busy putting in a new window in his home and occasionally glanced at the stable in which stood an out-law horse that he intended to break. The reporter told Mr. Brown that doctors advised people to get into bed and keep quiet for a few days when suffering from rheumatism. Mr. Brown snorted, grabbed the vibrator, applied it more vigorously than ever and shouted: "I haven't time for that nonsense I have got to break in this window and put that horse in."

Master Jack Stabback of Calgary is spending his holidays visiting his cousins Campbell and Elliott Evans.

J. E. Ostrander, O. K. Crockett (Hogan) and the editor, on Saturday completed arrangements to spend next winter in California. No other birds will be allowed to accompany them.

tee known as Bob, Tom and Camp spent several days repainting the exterior of the Red and White Store. Tom did most of the fine work while Camp and Bob did the heavy stuff. Ed Menard carefully supervised the job. Bob states he is afraid his parents, who are away on an extended holiday, will not be able to recognize the place when they return.

The C. P. R. has fallen into line with many townspeople and had a squad of men painting the station inside and out. The depot now looks spic and span.

J. O. Bogie's team with a mower attached ran away one day last week. The team cantered down Fourth Avenue and reduced much of the mower to scrap. They stopped right in front of J. Little's harness shop. No doubt with an eye to having the harness repaired.

V. KIMPTON AND LEADER R. HOWSON HERE SATURDAY

W. R. Howson, the Provincial Liberal leader and V. Kimpton the Liberal candidate for this riding in the next provincial election, will address a public meeting in the Oddfellows Hall next Saturday evening at 8 p.m. Everybody is welcome to attend and hear the Liberal platform in detail.

GLEICHEN IS GROWING

Born to Mr. and Mrs. Alex. Buckley, a girl.
Born to Mr. and Mrs. Wilbur Jeffers, a daughter.
Born on July 10, to Mr. and Mrs. R. C. Clifford a daughter.
Born July 14 to Mr. and Mrs. Strachan a boy.

RESULTS OF THE GLEICHEN SCHOOL EXAMINATIONS

The following is a list of those pupils who have passed their examinations in the grades mentioned.

GRADE I
Norma Halstead and Laurel Wall, Dorothy Johnston, Robert Service, William Service, Frank McKay, John Thompson and Wesley Clark, Grace Sutherland, Neal Warner, William Johnston.

GRADE II
Billy McIntyre, George Gooderham, Florence Bell and Theresa Fleury, Kenneth Matheson and Annie Browary, Stanley Warner, Edward James, Ronald Gilbert and Colleen Warner, Eugene Plante, Alvin Sutherland, Grace Cutrath.

GRADE III
John Boyd, John Rodominski, Eileen Collins and George Varnell, Maurven Pinesau, Donald Reid, Doris Krause, Thomas James, Peggy Bogie and Eli Sherstobitoff, Hazel Crum, Maurice Rishaug, Seldon Johnston.

Miss P. Birdson, Teacher.

GRADE IV
Honors: Jean Black, Esther Downey, Betty Jane McQueen, Arthur Nicholas, Dickie Windsor, Gwen Clark. Passed: Donald Farquharson, Edgar Taylor, Jean Dufosse, Rosa Woods, Olga Strachan, Ages Boyd.

GRADE V
Honors: Marjorie Gorrill and Rachel James, Teddy Varnell, Passed: Dorothy Bogie, Arlen Rishaug, Ruby Dingman, Grace Deshayes. Recommended: Lee Christianson, Emma Little.

GRADE VI
Honors: Ronald Halstead. Passed: Harold House, Martin McBurn, Florence Jeffers, Elliot Evans, Marie Lumsden, Leslie Menard, Eleanor Gooderham, Homer Desjardins, Lois Theoburn, Leonard Christianson, Teddy Egles, Jackie Reid, Kenneth Boyd. Recommended: Rita Ferguson.

Miss M. Vanvolkenburg, Teacher.

GRADE VII
Honors: Rita Halstead, Elizabeth Gooderham, Carol Trego, Eileen Jones, Robert Sather, Earle Clark, Bernice Krause, Marion Gilbert. Passed: Patricia Swain, Florice Warner, Jack Robinson, Campbell Evans, Helen Kelly, Margaret Dufosse, Orto Jeffers, Irene Young, Alex. Murray, Dennis Woods, Bobby Riddell, Euphemie McBurn, Vera Matheson.

GRADE VIII
Robert Black, Winnie Gorrill, Jack Hamar, Howard Warner, Mary Downey, Kipps Schmidt, Colin Busby, Frank Michael, Betty Umbrite.

Schools of Agriculture

ALBERTA

OLDS and VERMILION

1935-36 Term Opens October 22, 1935

Established 21 years ago, these schools have provided free tuition in Agriculture and Home Economics to more than 8,000 farm boys and girls. No entry fee or entry examination is required. Age requirement is 16 years and over. Academic requirement none save ability to undertake and profit from the courses. Room and board provided in modern dormitories at reasonable rates. Term is five months.

Write for Calendar and other information to Principal of either school or to

Marjorie House, Gertrude Desjardins, Elmer Crum, Albert Riddell, Miss L. Morton, Teacher.

PROMOTED TO GRADE X
Louise Allistat, Grace Anglin, Marjorie Birch, Wesley Desjardins, Foster Ferguson, Winnie Ferguson, David and John Garland, Gwen Gilbert, Phyllis Halstead, Frank Harrison, Della Hunter, Harry Laskoski, Edgar Little, James Swain, John

Umbrite, Marion Varnell, J. F. Gorrill, Prin.

One man in Gleichen has found business on the upgrade and that is P. DeHayes. He has added an extension to his garage in order to properly handle his increasing business. With this new addition Mr. DeHayes will have almost double the amount of space. Gus Marcy supervised the job assisted by Pete Rishaug.

Tea at its Best

"SASSA" TEA

Be Careful!

On Dominion Day in a riot at Regina, precipitated by relief camp strikers when police attempted the arrest of their leaders, one man was killed, in the neighborhood of one hundred persons more or less seriously injured, and damage done to property estimated at around \$25,000. The news of this happening filled the papers, newspapers "extras" flooded the streets, reports were telegraphed all over the continent, and cables carried the news to Great Britain and foreign lands. For a time it was almost the sole topic of conversation, and called forth questioning and discussions in the House of Commons. The Federal Government promised a searching investigation.

The Ontario Government is publishing a series of advertisements in the newspapers of that province. One such advertisement appearing almost simultaneously with the Regina riot says: "In Ontario, during 1934, there were nearly 10,000 automobile accidents, 512 people were killed, 8,990 people were injured, a considerable increase over 1933." No estimate was given of the property damage resulting from these 10,000 accidents, but it must have reached a total well up into the hundreds of thousands of dollars, if not into the millions.

Here are two sets of figures—two pictures if you will. Just consider them for a moment.

In the one instance, one man was killed and approximately 100 persons injured, most of them only slightly. Yet the whole Dominion is shocked, parliament is aroused, the law has been ignored, flouted, a crime committed. Immediate government action is demanded by practically all the people.

In the other instance, over five hundred times as many people were killed, thousands were injured, many of whom were maimed and disabled for life, property damage was enormous. But only a passing mention in the local newspapers at the time of each accident, and possibly some casual comment, but, generally speaking, the public displays little concern and accepts the situation with smug complacency.

Is it not time that the Canadian people shed their indifference in regard to these day by day highway tragedies, and bestir themselves to put an end to such wholesale killing? The Ontario Government says in its advertisement that "Ontario must start 'thinking' safety; that it must be evident to all thinking people that this must stop."

But how is it to be stopped? It is quite correct to say that people must "think" safety; but they must put their thinking into actual practice and "act" safely. But, people will say, in the Regina incident the law was broken. But, so, too, was the law broken in the vast majority of these automobile accidents. Our provincial statute books, and our municipal by-laws, team with laws and regulations governing the operation of automobiles. Constituted authority has done its part in endeavoring to provide for safety, and to the best of its ability it endeavors to enforce these laws and regulations, but it is an enormous task over hundreds of thousands of miles of roads and highways.

There is only one way to stop manslaughter on the highways, and that is for the individual motorists to stop it—stop it by strictly obeying the laws which have been enacted for their protection and for the protection of others. It is disregard of the law that is the root cause of the trouble.

Motorists must discipline themselves; not be disciplined by the law. It is pointed out, for example, that there were more than 800 bicycle riders killed or injured in Ontario last year. Bicyclists, especially children, are often careless. This simply means that drivers of motor vehicles must be "twice" as careful. They must remember that they are in the heavier vehicle. At stop streets and intersections they must "stop". Instead of taking so many things for granted, they must make sure that brakes, tires, lights, are effective; otherwise serious trouble may lie ahead.

Owing to economic conditions of recent years, many worn out and poorly equipped cars are being used. Drivers of these should be exceptionally careful. New makes of cars are more powerful, speedier, and the drivers of these are under a greater responsibility than ever before. They must remember that the old cars are not so speedy and govern themselves accordingly when passing such cars. These are only a few "musts"; there are many others that might be mentioned.

Some motorists resent all these laws and regulations. They deliberately ignore "stop" signs, and take all manner of chances while knowing their action is against the law. But with the mounting toll of deaths and accidents there is bound to be more law, not less, greater restrictions, instead of fewer of them. Public opinion will demand and insist on it. So if motorists desire to be free of so much law, they must refrain from being a law unto themselves; rather they must discipline themselves and not act as if they were above all law.

On the other hand, pedestrians and others than motorists using the highways must recognize that motorists have certain rights which ought to be respected. It is largely through the payment of license fees and gas taxes by motorists that our modern highways have been created and are maintained for the use of all. And accidents are by no means uncommon where the motorist is entirely blameless.

Canadians are reputed to be a law-abiding people. A riot is an exceptional occurrence in this country. Law must be respected and obeyed. But in view of the awful death and accident toll on our highways, there should be—must be—not merely observance of the letter of the law, but the whole spirit of it. In a word, the most important law of all for motorists, pedestrians, and others, is "Be Careful". Being careful, practicing safety first, will result in the observance of all law.

Makes Ideal Insulator

Unexpected virtues have been discovered in the lowly seaweed. When tightly packed it forms an ideal insulating material, keeping out cold, noise, water, or even fire. Scientific tests prove that a mat of seaweed half an inch thick is more effective than a brick wall twelve inches thick. The seaweed has besides only one-fourth the weight of ordinary insulating material.

for STIFFNESS!
Plenty of Minard's will soothe in soon even your stiff, aching muscles with warm water before you start.
You'll soon limber up!

MINARD'S
"KING OF PAIN"
LINIMENT

City in Miniature

A lilliputian city, the model of which is four feet six inches long and is 18 inches wide, has been constructed of thousands of bits of wood and cardboard, has 150 street lamps, each made of a bent pin and a glass bead; automatic traffic signals; telegraph poles made of pins with every cross-arm soldered on separately, and the trees, made of sea pine, dried and painted. The model was built by a Plymouth business man.

China Growing Tobacco

As a first step toward attempting to decrease China's very large importations of American tobacco, the ministry of finance has instructed the tobacco and wine tax bureau in six provinces to experiment with the planting and growing of American tobaccos on Chinese soil.

Seventy of every 100 men in Birmingham who were idle in 1931 have returned to work. 2106

Must Have General Knowledge

Recruits To Metropolitan Police Have Tricky Test

Somebody should revise that song, one line of which runs "If you want to know the time ask a policeman!" These days it does not go nearly far enough in London.

For instance—do you want to know the advantages of the hire purchase system to the buyer? Or to the seller? If you are at all curious about it—ask a policeman.

Or do you want to know why a steel ship floats? Ask a policeman.

If in an unduly enquiring mood you can ask the same constable why a fire burns more rapidly if a newspaper is placed in front of it, why a steam engine has a fly-wheel; why lined goods remain in good condition for a considerable time; why lead is commonly used for water pipes in houses.

Or being of a more sporting than scientific frame of mind, ask the same constable to describe to you what is meant by a knock-out, even on the field, a stylin', catching a crab or body-line bowling.

The new policeman will be able to answer you with ease on each or all of these points, and a good many others beside.

The reason? Well, these were some of the questions given to recruits to the Metropolitan force, and they were only allowed an hour in which to answer them.

There were more, even more tricky, but the above is a good sample.

Astronomer Views Sun Spots

These Spectacles Resemble Large Whirlpools Of Flame

Whirlpools of flame, large enough to swallow up the earth, are marching across the face of the sun.

Clouds stayed away from the sun long enough recently to give H. S. McClung, Regina optometrist and amateur astronomer, and visitors a glimpse of the sun spots.

The spots at present consist of a group of three or four near one edge of the sun's face and a single large one near the opposite side of the 800,000-mile wide disk.

Sun spots similar to cyclonic disturbances in the earth's atmosphere, are whirlpools or whirlwinds in the brilliant outer envelopes of the sun, exposing the darker inner portion.

About two years ago a period of sun spot activity was entered and the activity will last for another nine years.

Some persons attribute disturbed weather conditions on the earth to the sun spots. They are believed to produce, also, spectacular displays of northern lights.

Study Water Resources

Engineers Now Engaged In Work Over Wide Area

Geological survey of the southern drought section of Saskatchewan is under way.

Recently, 80 senior students, drawn from the engineering department of the Saskatchewan University, started work.

Traveling in 16 up-to-date motor trucks, the survey party will investigate water resources of approximately 100,000 square miles in southern Saskatchewan and south-eastern Alberta.

The survey party has been organized into 20 sub-parties, each comprising an engineering graduate and two senior students.

The work is being conducted under the direction of Dr. B. R. MacKay, Dominion geologist, and the area extends from the Manitoba boundary west to near Lethbridge, and from the international boundary north to near Saskatoon.

Empty House Costly

Manor Heath, one of the most famous mansions of Halifax, England, and the house in which the King and Queen resided in 1912, has been standing empty since the city bought it for \$92,500, five and one-half years ago. It has been estimated that, with the cost of upkeep plus the interest on the purchase price, Manor Heath is costing Halifax \$500 every month.

STOP THAT ITCH

In One Minute

D. D. D. Prescription Sings Real!

Every year's world-wide success. Its gentle oils penetrate the skin, soothing and healing the inflamed tissues. No fuss—no mess. Clear, greasy and stinging—dries up almost immediately. Try Dr. D. D. D. Prescription today! Stop the most intense itching instantly! A 35c trial bottle, at any drug store, is sent to prove it—or money back. Dr. D. D. D. is made by the owners of Italian Bala-

Millionaires Leaving

Heavy Taxation Cause Of Canada Losing Two Wealthy Citizens

The Toronto Telegram says "Canada is to lose two of her wealthiest citizens, and, incidentally with their departure the federal government's annual income tax will be reduced by several million dollars."

"The recent report that William H. Wright, with an annual income of about \$2,000,000, is definitely leaving Canada, is now followed by one that Harry Oakes, who possesses an income of nearly \$3,000,000 a year, may also leave the country to reside permanently in England," says the Telegram.

"The income tax paid by these two men alone to the federal government amounts to nearly \$3,000,000 each year," according to the Telegram.

While Mr. Wright, vice-president of Lake Shore Mines and vice-president of Wright-Hargreaves Mines, has definitely announced his intention to leave Canada, the Telegram adds "color is lent to the reported exodus of Mr. Oakes by his recent resignation from the presidency of Lake Shore Mines."

According to the Telegram, Mr. Oakes has bought a house in London, England, and it is rumored he will take up residence in the Channel Islands. Mr. Wright leaves in September for the Channel Islands and may visit Bermuda before he decides where he will make his new home, says the Telegram.

Rust Resisting Wheat

Scientists Have Advanced Far Towards Reaching The Goal

Hope for development of rust resisting winter wheat was focused by Prof. T. A. Kieselbach of the University of Nebraska upon the state's present rust scourge. Spring wheat scientists, he pointed out, already have advanced far toward this goal. The noted agronomist said the 1935 fungus threat spurred a generation-old search for immune varieties of grain. He is experimenting now with a special strain that may greatly reduce the susceptibility of winter wheat to stem rust.

He pointed to the planting of 3,000,000 acres of "Ceres" spring wheat, developed largely by Dean C. B. Waldron of the North Dakota Agricultural College, and said it would not suffer half as much from stem rust as other varieties.

Hot Weather Story

Toronto Man Tells Weird Yarn About A Fish

Five Toronto fishermen declare this to be a true fish story.

When Walter Sampson, Toronto, landed a large bass at Lindsay it fell on a rock, freeing itself of the hook. Then it reared up and started dancing straight at him.

The bewildered fisherman picked up a heavy stone to stop the fantastic progress of his catch, when he noticed the fish was being borne swiftly along by a four-foot water snake.

The snake glided to the water's edge where it released the fish, which swam quickly away.

Testing Arctic Air Service

Soviet Aviator Takes Three Passengers On Trial Trip

With three passengers, F. M. Kukonov, veteran Soviet flyer, recently took off from Moscow, Russia, on a flight scheduled to end at Wrangell Island, and to cover en route the polar and fur-trading stations of the Main Administration of the Northern Sea Route. The flight covered nearly 11,000 miles. The object of the trip, a test for both plane and pilot, was to ascertain the advisability of carrying passengers on such a long flight, and to check up on the work of the polar stations and their preparations for the coming navigation season.

Book Would Be Interesting

The Animal Welfare Society of South Africa is desirous of publishing in booklet form, for the use of congregations of all denominations on Animal Sunday, a collection of suitable hymns in English and Afrikaans. The assistance of the public is invited, and prizes of ten dollars are offered for the best hymns submitted in each language.

Thousands For Charity

Students of Glasgow, Scotland, collected a "mixed bag" during their recent charity-day street solicitations. The total amount raised was \$50,659. The only gold received was a half-sovereign, valued at \$2.50. There was \$80.60 in half notes and \$27,840 in pennies. There also was an L.O.V. for \$100.

British Mystery Air Craft

Claimed To Be The World's Heaviest Armed Air Fighter

The new British mystery aeroplane "Faery Fantome," claimed to be the heaviest armed air fighter in the world, will be brought from its closely-guarded hangar at Hendon soon to roar over the heads of experts in a display for the Society of British Air Craft constructors.

This ship carries four machine guns, one on each lower wing and two atop the fuselage, and also a quick firing gun which throws 20-millimeter shells.

The magazine of this gun carries 80 shells, fired through the propeller hub instead of through synchronized spaces of the whirling blades.

This new machine, expected to reach a speed of 250 miles per hour, has been secretly constructed at a British factory to compete in the international fighting plane competition to be held in Belgium in July.

Advertising Canada

Australian School Children To Write Essays On The Dominion

Australian school children will be encouraged to learn about Canada.

Mr. R. B. Hanson, minister of trade and commerce, explained money voted would be used to conduct an essay competition in Australia among secondary school pupils. A prize of a trip to Canada would be the reward of the pupil who wrote the best essay on Canada.

A similar competition had been conducted in Canada by Australia. Mr. Hanson said the winning pupil was now enjoying her trip to the southern dominion.

Human Slate

Skin Of Toronto Boy Registers Writing Like A Blackboard

Toronto has a human slate. He is John Darch, 17, whose skin responds to a stick in the same way a blackboard responds to chalk.

Taken a stick and write on John, and what is written takes visible shape in the form of a welt that can be felt when a finger is passed over it. How long the writing remains depends on the pressure applied.

Evidently Liked Cage

A trailer containing three lions broke loose from a circus truck in Dallas Texas, smashed into a ditch and jarred the cage door open. R. Thomas, the truck driver, went for help. Police arrived and found the three lions peacefully sitting in the cage—the door still wide open.

Sylvania is about 100 miles south-east of Prince Albert.

QUAKER CORN FLAKES

Harvest Methods Compared

Investigation Is Carried Out At Three Western Universities

A comparison of various harvesting methods in respect to moisture content and grade of the grain has been carried out jointly in the chemical laboratories of the Universities of Manitoba, Saskatchewan, and Alberta under the direction of the Associate Committee on Grain Research. The members of this committee are officials of the Dominion and Provincial Departments of Agriculture, the National Research Council, Agricultural Colleges and other organizations. In this moisture and grade survey it was found that in various harvesting methods in parts of Manitoba and Saskatchewan in 1933 straight-combed wheat showed a much greater percentage of tough and damp samples than either stock-threshed or swath-combed samples. Of 246 straight-combed samples, 18 per cent were tough and seven per cent damp. Of 215 stock-threshed samples, 10 per cent were tough and none damp, and of 184 swath-combed samples, 6.5 per cent were tough and 0.5 per cent were damp. With regard to the average grade of common wheat threshed by the various methods, there was a marked lowering of the grade between the early and late season samples, and in view of the conflicting results for two consecutive seasons, no definite conclusion can be drawn. As to durum wheat, results of the survey point firmly to the conclusion that stock-threshing is the best method for this class of wheat in Manitoba.

Asking For Information

He was genuinely enthusiastic about the virtues of temperance, but his face made people doubt him. Toward the close of his lecture, he squared his shoulders, held his rather large head erect, and said: "I have lived in this town all my life. In this town there are fifty-five public houses, and I am proud to say that I have never been in one of them!" Then came a voice from the back: "Which one is that?"—Ottawa Citizen.

Blue Laws Were Strict

The famous "blue laws" of Connecticut prohibited all housekeeping activities and cooking on the Sabbath. The late-bound colonial was forbidden to eat mince pie, to travel, to cut his hair, to shave his face, to dance, to kiss his children, to cross a river, or to play any instrument of music except the drum, trumpet or Jew's harp.

RELIEVE PERIODIC PAIN

If you suffer periodic pain and discomfort, try Lydia E. Pinkham's Tablets. In most cases, they bring welcome relief. As Mrs. Caroline Newman says, "They ease the pain."

Mrs. Raymond Chapin, Route 4, Tibbitt, Ont., says, "I suffered from terrible backaches and headaches. I was worn out. Your Tablets helped me. Let them help you, too. Ask your druggist."

Humorous Speeches Heard At Dominion Day Dinner In London

A sparkling dose of wits between Lord Hewart, lord chief justice, and J. H. Thomas, dominions' secretary, marked the annual Dominion Day dinner in London. G. Howard Ferguson, Canadian high commissioner in London, presided.

Proposing the toast to the British Empire, Lord Hewart first made an eloquent reference to what Pericles said about the Athenian empire, and then went on to discuss the merits of "the Rt. Hon. James Henry Thomas," who was to respond and who "seemed to enjoy conspicuous security of tenure in office."

He was known as Jim Thomas everywhere, declared the lord chief justice, and a reasonable jury would regard that as a strong piece of evidence of character.

"How many other members of the present powerful government are spoken of like that?" asked Lord Hewart. "Did you ever hear anyone speak of Sir John Baldwin? Did anyone ever refer to the chancellor of the exchequer as New Chamberlain?"

Lord Hewart finally summed up Thomas as one who was "at home equally with prince and peasant, bishop and billiard-marker. The British Empire is unlikely to slip off the rails while Jim Thomas is in charge of the train."

The laughter was quickly renewed when Thomas, in reply, alluded to Lord Hewart's reference to "Pericles"—that was how Thomas pronounced it.

"I make a dignified protest on behalf of this company against Gordon Hewart's airy assumption that we know everything about classical history. A lot of people around me have been asking me who Pericles was," he said.

"Gordon," declared Thomas addressing the lord chief justice, "you may be all right as a judge but you are no good as an after-dinner speaker. My first thought, though, after hearing you is thankfulness that my parents had the foresight to christen me Jim."

Sir Josiah Stamp, distinguished economist, proposing the toast to the Dominion, said he was looking forward to the time when Canada would play a tremendous part in international finance. Standing between the United States dollar and the pound, she would have immense influence. Alluding to the establishment of a central bank in Canada, Sir Josiah said: "Those on this side who know how important a part this organization is destined to play, hope the Canadian people will give this financial novelty at least the benefit of any doubts they may entertain on the project."

Visits Old Home

Dr. Senger Wheeler Of Rosthern, Saskatchewan Returns To Isle Of Wight

Dr. Senger Wheeler, Rosthern, Sask., has achieved his outstanding ambition—to revisit his birthplace, "a humble fisherman's cottage at Blackgang, Isle of Wight," states a short item in the Overseas Daily Mail. "Didn't I get a thrill when I saw the Isle of Wight again? I could not keep the tears back. It is 50 years since I left, you know—yes, it's my jubilee, too," Dr. Wheeler is reported as stating to the correspondent who met him at Southampton as he landed from the Montrose.

Dr. Wheeler started out at 11 years of age as a newsboy, and later tried to join the navy, but was rejected on account of stature; so he came to Canada, where his work with wheat in later years and his five wheat championships at the International Grain show at Chicago have brought him world-wide renown. Now at 67 years of age he is having a well-earned visit to his old home—Winnipeg Free Press.

Carried Huge Crowd

Bring on the great Cunarder Queen Mary and the French superhulk Normandie, but the old and decaying Leviathan still hangs on to the record of having transported the largest number of persons on a single sailing. That was during the World War, when in one crossing there were 11,470 troops and 2,087 members of the crew aboard—a total of 13,557.

Peace Garden

Transfer of 2,000 acres of Manitoba government land to directors of the international peace garden in the Turtle Mountain reserve was officially completed recently. The land will be utilized to extend the garden in the Canadian side of the international boundary. 2195

Still Widely Read

People Have Not Lost Taste For Mystery Fiction

Prediction of literary prophets that the craze for mystery fiction was on the wane and would soon be ended does not seem to be working out that way. For the last half dozen years wise-acres in the book world have persistently stated that the modern detective story was losing ground, that its day was about done. The public, they said, had sickened on the diet of murder and horror which was being served up to it, and that other forms of light reading would take its place. Perusal of circulation cards in the public libraries does not bear out this opinion.

To-day the mystery story still remains one of the biggest sellers on the book store shelves. And it is most emphatically not because mystery fiction has improved. It hasn't. —Chatham News.

To Encourage Tourists

Regulations Allow Free Admission Of Furniture For Summer Cottages

A further development is seen in the policy of the Dominion government to encourage tourist traffic and summer residences in Canada. In amended regulations, Hon. R. C. Matthews, minister of national revenue, has provided for the free admission of furniture and household effects when brought in on their first arrival by non-residents of the country for use in furnishing summer cottages. This is conditioned on such effects having been owned by them for at least six months prior to first arrival.

Government To Hunt Gold

Machine Bought To Save Gold Wasted In The Mint

The Canadian government is going to hunt for gold. It won't be in the far north, along fast-running streams or deep in rock-bound soil. It will be held right in the government's own mint.

Finance Minister E. N. Rhodes told the House of Commons a machine costing \$110,000 was being established in the mint to wash cases which were suspected of carrying away 1,000 ounces of gold each year. The washing machine was expected to pay for itself in three years at the rate of \$35,000 a year.

New Motive Conveyance

Los Angeles Inventor Has A One-Wheel Motorcycle

Walter Nilsson, 39-year-old Los Angeles inventor, rode his "unicycle," a one-wheeled motorcycle, through downtown streets recently. The invention is a wheel within a wheel. A one-cylinder motor drives the outer wheel forward.

Nilsson rode the "unicycle" 18 miles an hour. The inventor said with the addition of a pneumatic tire the wheel would travel 100 miles an hour. It now has a solid rubber tire.

The rider is inside the wheel which is steered by a secret device.

Palace Ceilings Cracked

Crowds Viewing Royal Wedding Gifts Caused The Trouble

Ceilings in some of the rooms at St. James' Palace in England have shown alarming cracks lately. Experts decided that there was danger of their collapsing, and investigations showed that the trouble was caused by the immense crowds who went to see the wedding presents of the Duke and Duchess of Kent in the State rooms above. The floors have been strengthened with steel girders.

A Different Settlement

Father: "Git yer jacket off, young man, and come wi me!"

Jack: "Yer no' goin' ter lick me, are ye, father?"

Father: "I'm that; didna I tell ye this mornin' that I'd settle wi' yer yer bad behavior?"

Jack: "Ay, but I thought it was only a joke, like when ye teit the grocer ye'd settle wi' him."

Assistance For Fishermen

Fishermen will be able to obtain capital from the government at low interest rates on the same basis as farmers under a bill of which notice was given by Hon. Grotes Sutherland, minister of fisheries. It is proposed to make \$300,000 available for loans to fishermen through the Farm Loan Board.

Licorice is used in fire extinguishers; it contains a saponin or froth-producing substance, which smothers the fire.

WAS CONSTIPATED FOR 30 YEARS

Woman's Long Search for a Remedy

The trouble with most remedies for constipation, said this woman, was that they gave only temporary relief. Having at last found a permanent corrective, she writes to tell us about it.

"For upwards of 30 years I was a victim of acute constipation. I tried practically everything that it was possible to try. I admit I was a chronic case, and every new remedy I tried helped for a day or two—after I was just as bad as ever. Three months ago I took my first taste of Kruschen Salts, and every morning since, and every morning so long as I live, my first duty upon rising is to take a box of Kruschen Salts. My bowels act to the clock, and my friends remark how well I am looking. My only regret is that I didn't try Kruschen years ago." (Mrs.) A. M.

Kruschen Salts is Nature's recipe for maintaining a condition of internal cleanliness. The six salts in Kruschen stimulate the internal organs to smooth, regular action. Your system is thus kept clear of those impurities which, allowed to accumulate, lower the whole tone of the system.

Always Remembers Queen

Many Human Traits Are Displayed By King George

In his recent address to Parliament, King George referred to Queen Mary not as "The Queen" but as "my dear wife." "I have been blessed," he said, "there have been twenty years of my dear wife beside me."

King George is not alone the dutiful husband but the thoughtful one. At the recent Air Force dinner to the King he was served with some fine strawberries from South Africa. Calling the head waiter, he asked if he might have another order to take home to the Queen. "She enjoys these special treats," he said in explanation.

Such little human traits have deeply strengthened the hold the royal pair have on the affections of the people.

THE RHYMING OPTIMIST

By Aline Michaelis

THE DREAMER SINGS

Give me a star in the tree tops
And a willow tree by the wall,
Then you of the world can have your
With its splendor and pride and all!

River the star has charmed me
And the willow tree has me swung,
And the whispering leaves have
Brought me peace

With the little songs they have sung.
Echoes have reached me faintly
From the world which lies without,
I have heard of its subtlety and
Of its mazes of hate and doubt.

Give me a star for promise
And a tree to sing me to rest,
Then you who love toil and bitter
Can have my share of the quest!

Had Laugh On Inspector

Compulsively entering a train at Chomutov, Bohemia, a ticket inspector examined several tickets and ordered the holders to change at once because they were on the wrong train. As he made his way through the cars he found more passengers he thought should move. Then one of them had a bright idea and asked the inspector whether he was not in the wrong train. He was.

During the course of an ordinary year, 8,900 marriage licenses issued in New York city are subsequently never used for the marriage ceremony.

Historic Rock Blasted

30-Foot Lip Overhanging Gorge Slips Away

With flashes of flame and a rumbling that introduced a new note into the age-old symphony of the Niagara cataract, 2,000 tons of rock were hurled into the gorge at the foot of the falls at Niagara Falls, July 1st, as two explosives shattered part of Table Rock, famed look-out point at the brink of the falls.

While a holiday crowd estimated at 40,000 persons viewed the brief spectacle from United States and Canadian sides of the river, 1,000 tons were blown into the gorge. Scenic beauty and contour of the falls was unaffected.

Preparations for the blast have gone on for a month. Eighty-five holes, each 15 feet deep, were drilled in the lip which had a length of 150 feet and a thickness of 35 feet. Into each were placed three sticks of dynamite and five pounds of black powder after the holes had been dried by compressed air.

The ledge, estimated by parks commission officials to contain more than 5,000 tons of rock, was blasted because a 30-foot lip overhanging the gorge—the spot which came to be called Honeycomb Point after the shape of the rock—was declared unsafe due to erosion.

Great Aid To Buyers

Newspaper Advertising Helps People Who Purchase By Phone

Modern life is much different today from what it was a decade ago. To-day, a great deal of buying is done over the telephone.

This, in turn, means that opportunities for purchases advantageous to the buyers are now almost completely centred in newspaper advertising.

The modern housewife knows what she wants, knows by brand name and orders in that manner—because advertising has taught her how she should do it and why it is profitable for her to do so.

Imagine ordering from an unknown grocer "some breakfast food," "some bacon," "some coffee," "some bread"—and so on, as in the olden days before advertising became the powerful force it is to-day!

First Horseless Brigade

May Decide Future Organization Of British Army

The first horseless brigade in history has taken the field under its commander, Major-General H. M. Wilson, and has fought its first "engagement."

This experimental brigade may decide what the future organization of the British Army is to be.

The elimination of the horse and male has brought about a collection of steel substitutes varying in utility and speed from the pedal bicycle and motorcycle to the high-powered automobile and truck.

General Wilson and his officers will study the problem of the efficiency of cars and trucks in the replacement of chargers and mule teams.

China's first all-Chinese golf tournament in Shanghai was won by J. M. Tang, aged 49.

"What's wrong with this Mustard, Mary? It's very poor stuff!"

"Why John— I thought I was getting a bargain—a big bag for 10c."

"It's no bargain at all prices! I'll bet you would get more actual mustard in 10c worth of Keen's than you would out of any 10c substitute. The extra bulk is only flour, ground up hulls and colouring matter!"

"You're right! From this time on I'm going to stick to Keen's."

KEEN'S D.S.F. MUSTARD

Made from seed grown especially in the West of England. The shells or hulls are removed, all the virtue being in the inner seed. Come good or ill. The extra bulk is only flour, ground up hulls and colouring matter. In original dose for as little as 10c.

Keen-Keen (Canada) Limited
1000 Avenue Street Montreal, Que.

Little Helps For This Week

The righteous shall be glad in the Lord and shall trust in him. Psalm 44:10.

The heart that trusts forever sings.
A well of peace within it springs.
Come good or ill,
Whatever today, tomorrow brings,
It is His will.

He will weave no longer a spotted life of shreds and patches, but he will live with a divine unity. He will cease from what is base and frivolous in his life, and be content with all places and with any service he can render. He will calmly front the morrow in the negligency of trust that carries God with it, and so hath already the whole future in his heart.—R. W. Emerson.

He who believes in God is not careful for the morrow but labors joyfully and with a great heart. He must work and watch, yet never be careful or anxious, but commit all to Him and live in serene tranquility; with a quiet heart, as one who sleeps safely.—Martin Luther.

Enters Gentled Class

The breathless union is almost ready to make its appearance on the cosmic scene, Lloyd Shanklin, G.C.F.P., president of the United Brotherhood of Vegetarians, announced. Shanklin said the new union was so different from the present fearful species that it didn't even taste like an onion. It is colorless and stainless.

Seen But Not Heard

Giraffes have not a single vocal cord in those long necks of theirs, which is the reason they are like good little girls and boys and are seen, but not heard. For giraffes hardly ever make a sound.

THE Winnipeg Grain Exchange and the Farmers.

Measures to Promote Adequate Payments to Grain Producers
Consistently Supported and Advocated by the
Grain Trade

The opposition of the Winnipeg Grain Exchange and of prominent grain traders to the Canadian Grain Board Bill, in the form in which it was originally introduced in Parliament and sent to a Special Committee, has been made the pretext for representing the Grain Trade as being antagonistic to the interests of producers.

The provisions in the original Bill for compulsory marketing of grain by a Canadian Grain Board, combined with the system of initial payments and participation certificates (that is, for a compulsory grain pool) and for the virtual confiscation of the property and machinery of the grain trade to the use of the Board, were opposed by the representatives of the Winnipeg Grain Exchange and the trade. But the President of the Exchange and all other members of the Grain Trade who gave evidence before the Special Committee specifically advocated measures to secure reasonable payments to producers, whatever might be the level of international grain prices. It should be emphasized that the Grain Trade representatives were the first witnesses to appear before the Committee.

In his evidence before the Committee on June 20th Roy W. Milner, president of the Winnipeg Grain Exchange, in an official statement, said:

"As the agents of the producers in the storing, transportation and merchandising of their grain the interest of grain traders, indeed their very existence, depends upon the maintenance of the farmers in as sound and prosperous a condition as can be attained.

"The members of the Exchange are vitally concerned to secure for grain growers the largest possible return for their crops, to develop and maintain the widest and most remunerative markets for their grain and grain products, to keep the costs of handling and merchandising within the most reasonable limits and to assist by the provision of the most efficient and economical machinery for these purposes in meeting the competition offered by other grain producing countries.

"The Winnipeg Grain Exchange realizes the gravity of the present situation but feels that the sooner a policy is adopted of selling our grain crop in the open market at prices that will find purchasers in the markets of the world in competition with grain of other countries the sooner will the present difficulties disappear. In the meantime it may be necessary to subsidize the producers either by some system of price support or by other means, and in that case the Winnipeg Grain Exchange will continue to co-operate with the Government."

In the course of examination by the Chairman and members of the Committee, Mr. Milner expressed himself as being in favor of subsidizing the producers if world wheat prices declined and of establishing a minimum price to be paid to growers.

James A. Richardson, president of James Richardson & Sons, Limited, said in his evidence:

"If our Government wants to give the farmers financial assistance under existing conditions (and I would certainly like to see them do it), then there are several ways that this can be done. I consider it is possible to assure our producer a guaranteed fixed price, but still to permit an open market so that if our market declined below the fixed price the farmer would get a certificate from the elevator company entitling him to collect the difference between the fixed price and what his wheat actually realized. The farmer might, on the other hand, if thought advisable be paid a direct subsidy. It is a government problem as to how this matter may best be met but it must be accepted as a fact that the foreign buyer will continue to buy where he can buy the most for his money, and that he will take advantage of depreciated currencies in certain parts of the world, and it is quite futile to try and induce him to subsidize citizens of other countries.

"I would rather like to see the farmer assured of a fixed minimum price, that would give him some protection against depreciated currencies of the southern hemisphere, and a board with authority to use stabilizing influences in the market if they thought it were necessary, and to feed out our surplus wheat as and when the market would take it, and to try to allow the trade the largest possible freedom and to act as a stabilizing factor, as an insurance and safety factor; to operate largely in that way would depend, of course, a good deal on good judgment being employed."

The evidence of Sidney T. Smith, President, Reliance Grain Co., Limited, was as follows:

"It would in my opinion, be a good idea to establish a fixed minimum price and if wheat reached that figure and there were no other buyers the government agency should take the wheat offered, but would continue to sell wheat at international prices and if the international price were higher than the minimum price the Board would, of course, not require to make purchases. I do not suggest that this Board attempt to dispose of the accumulation of the past five or six years by dumping it on the market and thereby risk a chaotic break in prices, but I suggest that there be a stabilization policy through the open market; and that this surplus wheat be fed into the market from time to time as conditions may permit."

Robert McKee, General Manager, Canada Grain Export Company, Limited, representing the Vancouver Grain Exchange, said:

"We recognize further that until private traders have been encouraged to resume active trading in wheat in forward positions as was done prior to the government's participation in the market, some market support from time to time may be necessary to handle smoothly the large crop without unreasonable price declines."

Every representative of the Grain Trade urged the giving of assistance to wheat producers if the international price level were disadvantageous to them. They were unanimous in expressing approval if the Special Committee and Parliament saw fit to adopt them, of the proposals ultimately embodied in the Canadian Grain Board Act for the payment of a minimum price to farmers, the continuance in operation of the existing grain marketing machinery and the gradual liquidation of the Canadian wheat surplus. These proposals were accepted by Parliament largely on recommendation of the Grain Trade, the compulsory features originally proposed being withheld from operation until made effective by proclamation.

No attempt to represent the Winnipeg Grain Exchange and its members as antagonistic to the producers' interest can be successful in face of the adoption by Parliament of these measures and of the evidence given by the representatives of the Exchange and the Grain Trade, as quoted above from the official record.

THE WINNIPEG GRAIN EXCHANGE

Town & District

Fred Jones reports last week his father had new potatoes from his garden for the first time this year. Anybody beat that?

Mr. and Mrs. Pember Ostrander and family of Broadview, are holidaying in town visiting Mr. and Mrs. J. E. Ostrander, Pember's parents.

Denny Woods and Gordon Schnepf went into the ice cream manufacturing business Sunday and sold their product in short order at the lake. They are now capitalists and no doubt the income tax inspector will call on them in a few days.

Mrs. C. Busby had many sweet peas in bloom in her garden last week which were greatly admired by her friends.

The most wonderful garden in town is that of Mr. and Mrs. A. R. Yates. We cannot describe it, therefore take a look for yourself and see how beautiful it is.

Mr. and Mrs. E. Hunter and Kathy of Bashaw spent a few days here visiting F. Desjardins and T. Anderson.

John Umbricht was the only Gleichen boy to attend the Boys Farm Camp at Calgary last week. John reports having spent several wonderful days at the exhibition learning all about prize stock and how the judges pick the prize winners.

Word was received in Gleichen last week of the death of Mr. A. St. Jean at Lac Maligne, Alta, on June 23, at the age of 67 years. The late Mr. St. Jean was well known in Gleichen and district having resided here and farmed for many years, before leaving for the Peace River country some four or five years ago. In a private letter from one of the members of the family we are informed that he had been suffering from liver and kidney trouble for the past year and had been in the hospital on several occasions. He was thought to be recovering and the family were totally unprepared when he passed away. Besides his wife he leaves six children: two sons and four daughters.

The Gleichen Boy Scouts were to have gone to camp at the river Monday, but for some reason or other it was impossible to get enough boys together so the idea was given up.

For the kindness and many beautiful flowers sent to Louise during her recent illness we wish to thank everyone at this time.

Mr. and Mrs. G. Allist and Louise.

DASHES FROM CRAIGANTLER AND DISTRICT

A large number of people from a round here attended the Stampede in Calgary last week. There is a stampede anytime around Craigantler district, if not a stampede a girls ball game.

SI Sheets has been very busy of late. He wanted to send an item for the Call but did not feel like taking the responsibility of it, so tried to put the work on to the reporter. However, your correspondent said nothing doing. We advise SI to be very careful and not get into a mess.

Tom Evoldsen was all week in Calgary, during the stampede. He was busy taking people up for air rides.

Mr. Charles and Marjory Grant are at present in Vancouver on business. They made the trip by auto.

Mrs. Mrs. J. A. Grant and Arthur accompanied Mr. and Mrs. George MacLean to the stampede last week.

ST. ANDREWS' ANGLICAN

Bible Class at 10:15 a.m.
Holy Communion 11 a.m.
Evening service at 7:30 p.m.
Confirmation classes will be held every Wednesday evening at 8 o'clock unless otherwise arranged.

NOTICE

TOWN OF GLEICHEN
Notice is hereby given that under the provisions of the Tax Recovery Act, 1929 the Town of Gleichen will offer for sale by public auction at the Town office, Cross Street, Gleichen on Friday the 26th day of August, 1935, at 10 o'clock in the forenoon the following parcels of land.

Lots	Block	Plan
1 and 2	2	249B
1, 12 and 30	3	249B
1	5	2803K
22 and 23	6	752N
27, 28, 29, and 30	8	752N
16	12	908X
5, 7, and 9 to 20 (incl.)	18	2550A.J.
1 to 5 (incl.)	19	2550A.J.
8, 9 and 15 to 20 (incl.)	19	2550A.J.
5 to 8 (incl.)	20	2550A.J.
24 to 27 (incl.)	20	2550A.J.
1 to 12 (incl.)	22	6152A.C.
9, 10, and 18 to 19 (incl.)	A	5345N
16 and 17	B	5345N
1, 2 and 39 to 34 (incl.)	D	5345N
3 and 4	E	5345N
14 to 16 (incl.)	G	1465A.D.
34 to 36 (incl.)	H	1465A.D.
26	K	1465A.D.

50 feet by 50 feet of lots 34 and 35 in Block 8 Plan 752N as described in Certificate of Title 38 G 130.

Part of South East quarter 13-22-23 W. 4th Meridian, containing

30.85 acres more or less as described in Certificate of Title 39 S 54.
Each parcel will be offered for sale subject to a reserve bid and subject to the reservations contained in the existing certificates of title.

Terms Cash.
Redemption may be effected by payment of all amounts of taxes and costs at any time prior to the sale.

Dated at Gleichen, Alberta this 21st day of May, 1935.
M. MURRAY,
Secretary-Treasurer.
